

Name of wind farm		Trysglwyn (0)			
How many complaints were received about this wind farm?		1			
In what year was each complaint made? (if more than one complaint please list the years)		2007:			
Please provide a detailed description of the noise complaint(s): (eg, time of day, wind conditions, description of noise, any other factors that might have contributed to the complaint) THIS INFORMATION IS VERY USEFUL SO PLEASE USE AS MUCH SPACE AS NECESSARY. IF THERE WAS MORE THAN ONE COMPLAINT AND THE COMPLAINTS HAD DIFFERENT CAUSES PLEASE COMPLETE A SEPARATE TABLE FOR THE DIFFERENT TYPES OF COMPLAINT.		<p>Noticed mostly during the day and with moderate wind speeds blowing directly from the site towards property in question.</p> <p>The Planning Consent requires measurement at five named un participating properties following commissioning and at two selected properties thereafter at 20 month intervals. At each property, wind turbine noise must not exceed 40dB(A) $L_{50\ 10min}$ at 5m/s hub height wind speed.</p> <p>Noise compliance monitoring was undertaken at this property in 1999 and at that time, it was found to comply with the planning consent.</p>			
Do any of the following terms describe the noise that was complained about at this wind farm site? (Please delete Yes or No as applies)					
Swish	YES / NO	Throbbing	YES / NO	'train that never gets there'	YES / NO
Swoosh	YES / NO	Thudding	YES / NO		
Ghostly Noises	YES / NO	Thumping	YES / NO	'like motion sickness'	YES / NO
Wooh	YES / NO	Pulsating	YES / NO		
Wooh		Whooshing		Whistling	

Beating	YES / NO	Distant Helicopter	YES / NO	Rhythmical Beat	YES / NO
Lapping		Rumbling	YES / NO	Other (please list):	YES / NO
Grinding	YES / NO		YES / NO		YES / NO
	YES / NO		YES / NO		YES / NO
Did you visit the home of the complainant?		YES / NO			
Did you visit the wind farm site?		YES / NO			
Did you hear the noise that was being complained about?		YES / NO only slightly			
Briefly describe the investigation that took place.		Noise monitoring currently being undertaken.			
Was the wind farm judged to be causing a noise nuisance?		YES / NO			
What action, if any, was taken?		Awaiting report.			
This project is about Amplitude Modulation of Aerodynamic Noise (AM) which can be described as 'Wind turbine blade noise which is modulated at blade passage frequency (typically once per second) with a sharper attack and a more clearly defined character than usual blade swoosh. It is sometimes described as being like a distant train or distant piling operations'. Does the noise from this wind farm conform to this description?		YES / NO / DON'T KNOW
